

in a nutshell

newmediaboutique offer web solutions and great ones at that. with knowledge and passion we take care of everything, to provide a total solution tailored to the needs of you and your customers.

want to know a bit more?

we've worked on small brochure websites with local businesses, through to complex online ordering systems with international brands. chances are you'll want something in-between. if the scope of your project goes beyond this, we will too!

we also love web standards. building websites this way means they will still work tomorrow (not just today). these standards help us make everything accessible to the widest audience possible to satisfy laws like the disability discrimination act.

what else?

- we're a friendly bunch of people providing a creative, efficient service.
- we think about you, your organisation, industry, customers and goals.
- one person will be dedicated to keeping you updated on your projects.
- we design + build attractive, easy-to-use websites.
- search engines love the way we build simple, structured pages.
- you get a finished solution reflecting the investment made.
- we have another satisfied customer.
- the start of a fantastic relationship... see you again soon!

to find out more, please disturb us and say hello on **0113 3865587**, drop us an email to findus@newmediaboutique.com or simply visit our website: www.newmediaboutique.com - we'd love to hear from you!
